SUMMARY

WordPress and Shopify developer with 4+ years of full-time experience, 27+ production projects and 5+ independent WordPress builds. I build custom WordPress themes (ACF, custom post types, WooCommerce, WPML) and Shopify Liquid themes (sections, schema, metafields, cart UI) from Figma, then handle QA, performance, deployment and ongoing maintenance.

EXPERIENCE

Frontend Developer — Team Reactivate Pvt. Ltd., Karachi Jan 2022 – Present
Intern (Jan–Apr 2022) → Junior Frontend Developer (May 2022–Jun 2023) → Frontend Developer (Jul 2023–Present)

- Deliver responsive interfaces from Figma handoff through QA, production fixes and deployment support, working with designers, backend developers and project managers.
- Contributed to 27+ production projects for brands including Dawlance, Shan Foods, Lux, Pond's, Sunsilk, TRESemmé, Doritos, Lipton, Red Bull and Dalda.
- Resolve urgent production issues, cross-browser defects and responsive UI problems; optimize performance and support technical SEO.
- Own frontend delivery for TMS People, a multi-organization HRMS in active beta: reusable components, design tokens and light/dark themes.

Frontend Developer (Contract) — ContriverMate, Remote Nov 2021 – Sep 2024

- Responsive updates, maintenance, frontend refinements and selected WordPress builds across WordPress and Laravel UI codebases.

WordPress Developer — Independent work, Remote Alongside full-time work

- Delivered 5+ WordPress projects end to end: requirements, theme customization, e-commerce, responsive UI, QA, optimization and handover. Clients include Destination Food, Syriza Textile and Sadaat Quran Academy.
