PROFESSIONAL SUMMARY

Frontend & WordPress Developer with 4+ years of full-time experience and contract work since 2021. Delivered 27+ projects across WordPress, Shopify and internal applications, specializing in responsive UI, Figma-to-code, performance optimization, technical SEO and production QA.

02 PROFESSIONAL EXPERIENCE

Frontend Developer

TEAM REACTIVATE PVT. LTD. | Karachi

Jan 2022 – Present

Progression: Intern (Jan–Apr 2022) → Junior Frontend Developer (May 2022–Jun 2023) → Frontend Developer (Jul 2023–Present).

- Deliver responsive interfaces from Figma handoff through QA, production fixes and deployment support, collaborating with designers, backend developers and project managers.
- Contributed to 27+ production projects for brands including Dawlance, Shan Foods, Lux, Pond's, Sunsilk, TRESemmé, Doritos, Lipton, Red Bull and Dalda.
- Own frontend delivery for TMS People, a multi-organization HRMS in active beta alongside a legacy system. Established reusable components, design tokens and light/dark themes; refined responsive layouts and employee workflows.
- Resolve urgent production issues, cross-browser defects and responsive UI problems; optimize performance and support technical SEO.

Frontend Developer (Contract)

CONTRIVERMATE | Remote

Nov 2021 – Sep 2024

- Contributed to WordPress and Laravel UI codebases through responsive updates, maintenance, frontend refinements and selected WordPress builds.

TECHNICAL SKILLS

WordPress / WooCommerce: Custom themes, Elementor/Pro, Gutenberg, ACF, CPT/custom fields, PHP templates, custom plugin work.

UI Engineering: HTML5, CSS3/SCSS, responsive UI, Flexbox/Grid, Tailwind CSS, Bootstrap, design systems, light/dark themes.

Multilingual / RTL: WPML, Polylang, language switching, English/Arabic RTL interfaces.

Tools: Git/GitHub, Vite, npm, Node.js, Figma, Photoshop, Illustrator, Browser DevTools.

EDUCATION

Intermediate (Arts) | Govt. Degree Boys College Baldia Town Sector 4E, Karachi | 2022

Web Development Certification | Infra | 6 months | 2022

SELECTED PROJECTS

01 TMS People — Multi-Organization HRMS

Vue.js / Laravel / Tailwind CSS / Vite

Own end-to-end frontend delivery for a private HRMS in active beta for about 150 employees, with multi-organization support and legacy-system coexistence. Built dashboards, attendance/roster screens, employee profiles, HR services and organization charts with reusable components and light/dark themes.

02 HRSI — Custom WordPress Platform

WordPress / PHP / ACF / Elementor / GSAP

Built the complete frontend from supplied designs, including a custom theme, responsive layouts, animations and optimization. Recorded Lighthouse lab scores: 94 mobile / 94 desktop performance; 100 SEO.

Project: hrsi.teamreactivate.com.pk

03 Shan Foods

WordPress / Multilingual UI / Dynamic Product Content

Developed and maintained responsive interfaces for a multilingual product portfolio, including dynamic product content, language switching and frontend customization.

Project: www.shanfoods.com

04 MakeBranded — Main Platform + Blog

Laravel Frontend / WordPress / Performance / SEO

Implemented and optimized the main platform and WordPress blog. Recorded Lighthouse performance: main platform 98 mobile / 99 desktop; blog 99/99, with 100 accessibility, best practices and SEO on blog tests.

Main: makebranded.com / Blog: makebranded.com/blogs

05 Bento Kids — Shopify Store

Shopify / Liquid / Theme Sections / Metafields

Built and customized themes, sections/blocks, schema, product/collection templates, metafields and cart UI. Handled variants, responsive layouts, performance work and theme publishing.

Project: bentokid.com

06 Dawlance Prima Range Catalogue

HTML / SCSS / JavaScript / Angular Rebuild

Built the production frontend from Figma, then rebuilt it in Angular for learning: nested components, routing, Signals, @if/@for control flow, parent-child communication and responsive SCSS.

Angular demo: prima-line-catalog.vercel.app

07 Lux Style Awards — Website + Jury Portal

WordPress / JavaScript / Responsive UI

Contributed across four annual cycles (2022–2025). Updated the public WordPress UI and owned the full frontend/UI of the separate JavaScript jury voting portal.

Website: www.luxstyle.pk

08 Team Reactivate — Beta Website

WordPress / Custom Frontend / GSAP

Built the frontend end-to-end with GSAP interactions and responsive layouts. Recorded Lighthouse lab scores: 87 mobile / 95 desktop performance; 100 accessibility, best practices and SEO.

Project: beta.teamreactivate.com.pk

INDEPENDENT WORK

Delivered 5+ independent WordPress projects alongside employment, covering requirements, theme customization, e-commerce, responsive UI, QA, optimization and handover. Clients include Destination Food, Syriza Textile and Sadaat Quran Academy.

CONTINUOUS LEARNING

Self-directed, non-certified learning: Angular, React, TypeScript, advanced CSS/SCSS, GSAP, WordPress/WooCommerce, Shopify/Liquid, Core Web Vitals, technical SEO, Git/GitHub, Laravel/Blade fundamentals, graphic design and core IT concepts.
